safety while reducing costs

## WHAT IS **TECKNOTROVE PROFILING**?

**Tecknotrove Profiling** is a computerized & simulated risk assessment tool designed to predict the drivers risk levels on road. This unique system helps you know your drivers better and assess the overall risk levels of your fleet. It measures the psychometric, demographic and behavioral factors that influence the driver risk levels on road.

## WHO CAN USE IT?

It can be used by Fleet Owners, Fleet Managers, HR Managers, Training Managers, Logistics Managers to test the drivers driving company owned vehicles.

## WHAT DOES THE **PROFILING COVER**?

Tecknotrove Profiling System evaluates the drivers on 4 core attributes that makes a safe driver.

- Identifies personal driver information & driving history.
- Multiple questions covering each discipline of a safe driver.
- Measures the drivers risk based on answers given in the test.
- Provides a comprehensive risk profile for each driver with training recommendations.
- Managers have access to a report containing a risk rating for each driver.
- Profiling can be incorporated into pre- employment / recruitment process.
- Available in Hindi and English.

# FEATURES

We collaborate  
with our clients

to develop sustainable solutions  
to address their challenges.

We use technology  
that makes our training experienced  
based and result oriented.

## TECKNOTROVE PROFILING IS AVAILABLE IN 2 VERSIONS

### ONLINE | ONSITE

#### ONLINE DRIVER PROFILING

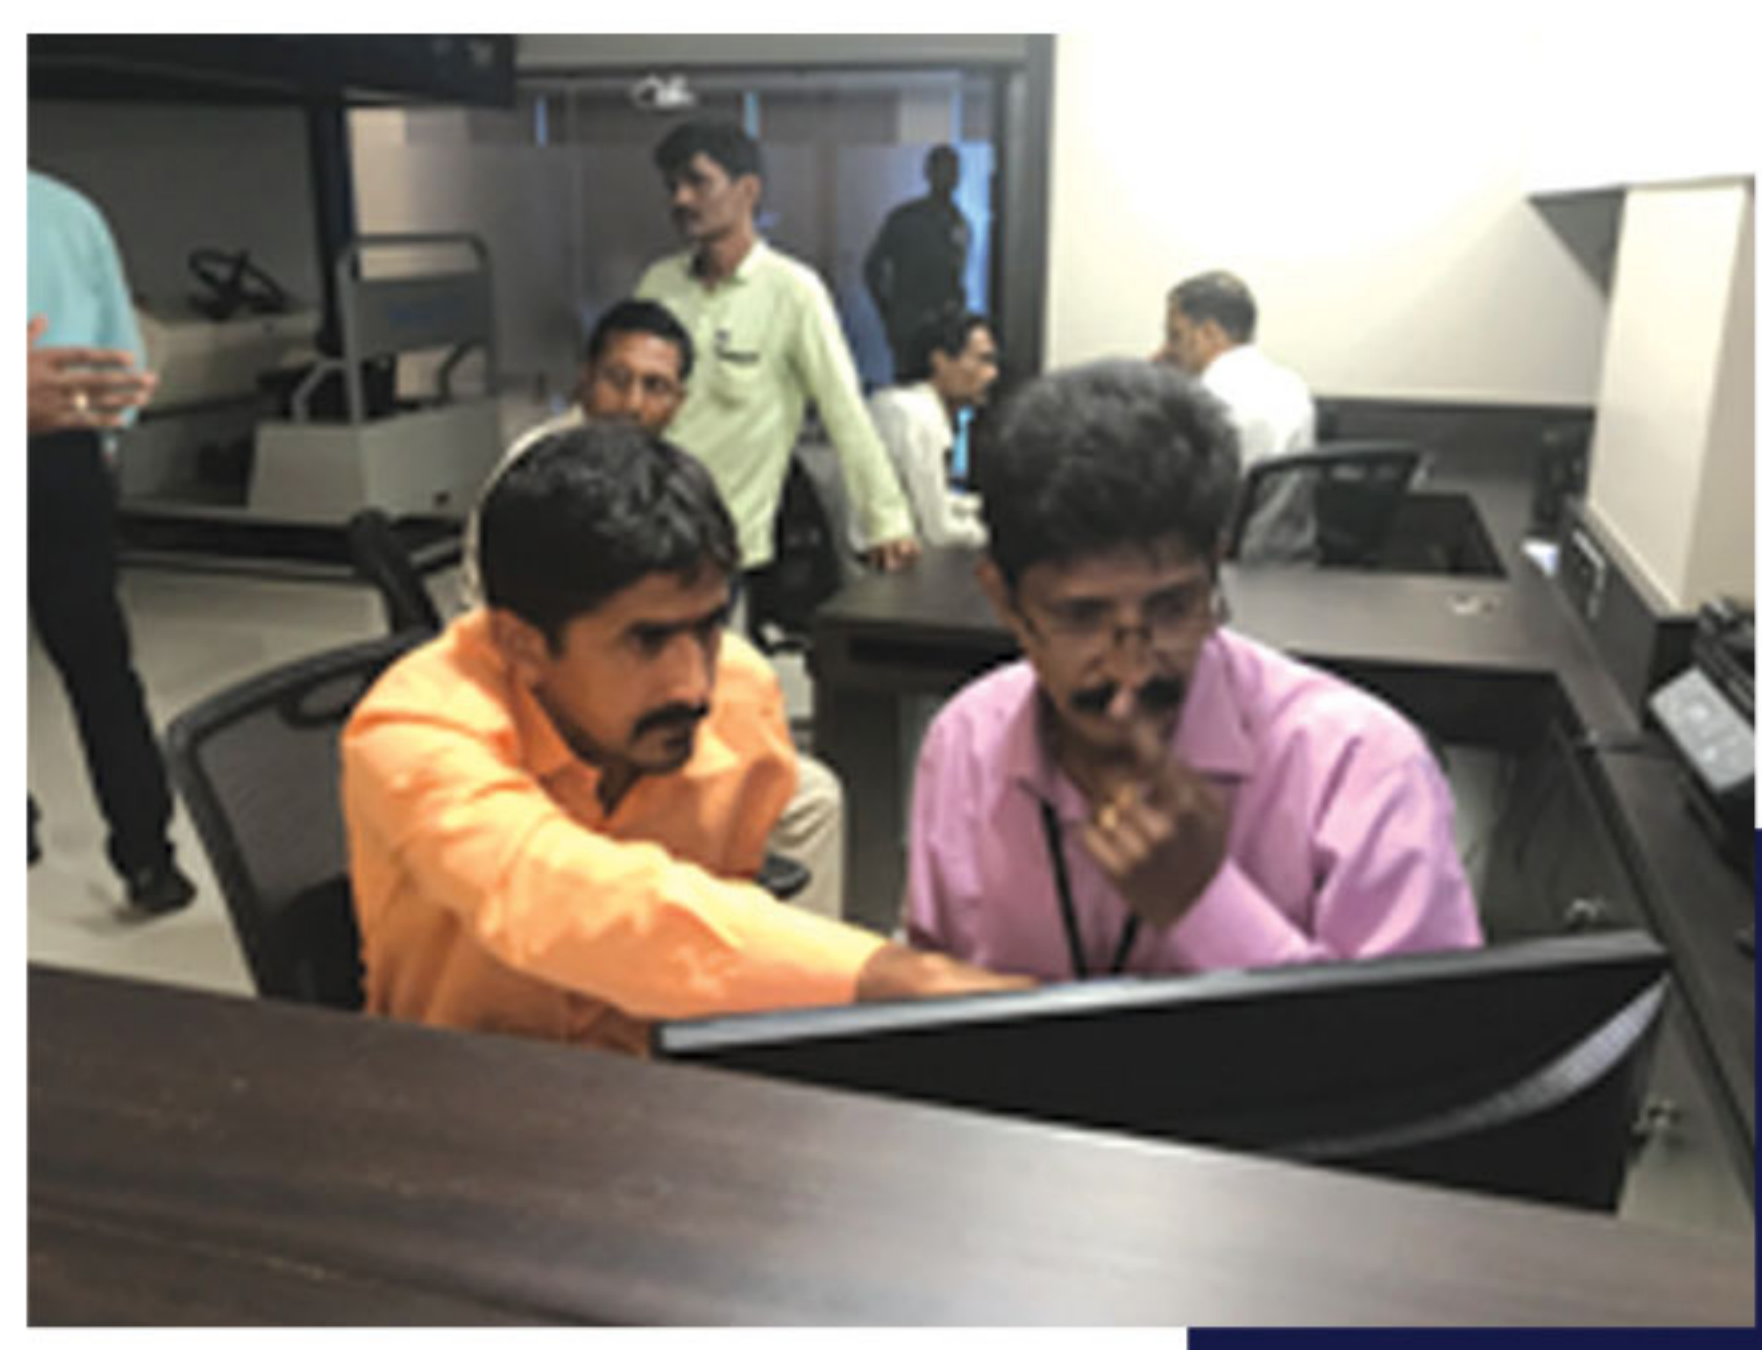

The online version is designed for those driving 4 wheelers and 2 wheelers. The driver risk assessment test can be taken on desktop computer from any locations. It takes around 30 minutes to complete.

**Note:** Licenses for online profiling are valid for 12 months and can be purchased for any number of drivers.

#### ONSITE DRIVER PROFILING

The onsite profiling is especially designed for heavy vehicle drivers. The Profiling set up is done on client site. The set up includes clinical testing systems and a driving simulator. Assessment is conducted by trained instructors and takes approximately 45 minutes to complete.

## WHAT IS THE BENEFIT OF PROFILING DRIVERS ?

Tecknotrove profiling provides excellent insights into the risk posed by drivers, and allows managers to compare drivers and make decisions on the providing appropriate training.

- Identify the drivers that pose high risk.
- Identify targeted training required by drivers.
- Recruit better and safer drivers
- Reduce insurance costs by lowering risk
- Reduce the risk of crashes and injuries on road
- Reduce the risk of material loss
- Reduce the cost of unscheduled maintenance
- Improve the overall operations and safety levels
