

Tecknotrove Systems India Private Limited

Job Title:	Intern – C# Programmer	Department:	Software
Location:	Andheri - East, Mumbai / Vapi	Position Type:	6-month paid internship with potential for full-time employment

About Tecknotrove Systems:

Tecknotrove Systems is a young and dynamic technology company headquartered in Mumbai and recognized as India's first and Asia's largest manufacturer of training simulators and virtual reality solutions. Tecknotrove develops immersive training solutions for critical applications for industries like Automotive, Aviation, Mining, Defence, Nuclear, and Industrial safety. With a team of over 150 talented people, we are continuously innovating and have successfully delivered 1000+ projects in over 28 countries around the world. Our expertise lies in creating virtual worlds for critical applications using simulation and AR/VR technologies. We are headquartered in Andheri, Mumbai, with offices in Delhi and the Middle East and a manufacturing facility in Gujarat.

Position Summary:

You'll assist in developing software applications, write code, and collaborate with our team. This opportunity offers hands-on experience and the potential for full-time employment based on performance. Ideal candidates are pursuing a Computer Science degree, have programming skills, and are eager to learn in a professional environment.

Roles and Responsibilities:

- Assist in developing and maintaining software applications
- Write clean, efficient, and well-documented code
- Collaborate with team members on various projects
- Learn and apply best practices in software development
